

Ø1 & Ø2 measured = 35.9KHz = 27.9µs

Digit pulses (Tx) are 3•Ø2 with 1•Ø2 inter-digit.
Number cycle is 10•4•Ø2 (~ 900Hz).
Digit pulses are only present for non-blank digits.
Segment lines may be asserted during blanked digits.

Notes

- Capacitance in microfarads unless otherwise specified.
- Based on unit missing the case. Serial number unknown.
