

2006 Limited Edition Krieghoff PARABELLUM

Back from the past!

Using authentic specifications, an one time release of 200 Model 08 PARABELLUMS continues the original production line halted over 60 years ago.

Between 1934 and 1945, Krieghoff produced approximately 13,850 Model "08" pistols in their factory in Suhl, Germany. Approximately 1650 pistols were manufactured as a civilian version. This rarer PARABELLUM contained additional features and details omitted on the military version. Krieghoff continues production of this very sought after collector's item. Only 200 pieces, serial numbered 18001 to 18200, will be produced – signifying the continuation of the product line halted over 60 years ago.
